Example Institute
bob@example.org

Abstract

A fictional paper used to demonstrate an ARR commitment merged into the same volume.

1 Merging submission sources

This sample represents paper 1 from a separate commitment venue. In the combined workshop data it has ID 20 and file name 20.pdf, so it does not collide with paper 1 from the direct-submission venue. The original number is retained in the attributes field of papers.yml.

2 About this sample

This PDF contains no research results. Replace it with the final paper. This example link is included for checking PDF link preservation.
